Don't settle for basic screen sharing options – our tailored platform offers unparalleled security and an optimized shared environment for all types of hearings. Our technical experts will handle all the customization and management, allowing you to fully reap the benefits. Say goodbye to tedious document preparation – we've got you covered with advanced preparation of all hearing materials.

Electronic Presentation of Evidence (EPE) service includes:

- Advance preparation of hearing materials to ensure counsel are fully supported during all hearings.
- State-of-the-art presentation features: zoom-in to enhance legibility, highlight key sections, and make instant comparisons to ensure comprehension.
- A comprehensive document record, including the original format, labels, and numbering. No renaming necessary. This ensures simplified and precise document retrieval and request fulfillment.
- Editing video depositions to remove objections, colloquy, and long pauses, resulting in concise evidence.
- Streamlines the hearing experience by providing an easy-to-use interface without unnecessary tools or clutter.
- Technicians will prepare in advance for each day to be familiar with the day's evidence and follow your presentation plan.
- Shared and private workspaces, chat/message center, and secure individual user login credentials with two-factor authentication.
